

Daimler Chrysler Crossfire

ENGINE PERFORMANCE*

Renntech Engine Performance Products are categorized into two classes:

Renntech Performance Upgrades

These components are designed for entry-level performance enthusiasts. Adding any single component or a combination is a great way to experience noticeable performance increases. They are economical, easy to install and you can add on at any time for additional performance.

Renntech Performance Packages

Our performance packages are the most cost effective way to take your Chrysler to the next performance level. These packages have been engineered and designed to give you optimum performance at varying price levels. The various packages go from moderate levels all the way to maximum performance levels. Complete engine conversions and supercharger kits are included in this category.

Crossfire

Stock Horsepower: 215 @ 5700 RPM Stock Torque: 229 lbs.-ft. @ 3,000-4,600RPM

Code	BHP Gain	Lbs.-Ft. Gain	Total BHP @ RPM	Total Lbs.-ft. @ RPM	Description	Price
C 54 170 00 05	10	12	225 @ 5700	241 @ 3000-4500	ECU Performance Upgrade**	\$ 995
C 01 170 00 07	47	65	262 @ 5600	294 @ 3000-4600	Performance Package 3 3.8 L Torque Conversion	\$ 9,995
C 01 170 00 08	76	73	291 @ 5850	306 @ 3600-5000	Performance Package 4 3.8 L Torque Conversion with camshafts and ported/polished cylinder heads	\$ 14,995

All sales are subject to Renntech Sales & Warranty Policies, which are downloadable from our website or available upon request.

Prices are effective as of the date shown on the bottom of each page and subject to change without notice. Prices do not include installation services, which are available either through us or our Authorized Dealers, installation prices are available upon request.

* Some Renntech engine conversions require additional cooling and/or transmission modifications, which are not included in the listed prices. Please contact your Product Specialist for details.

**Our ECU upgrades utilize state-of-the-art programming technology to bring you maximum performance, drivability and reliability. The result is increased horsepower, faster throttle response, 300 rpm gain over red line and raised top speed limiter to over 186 MPH. Less expensive chips may be available elsewhere, but for those of you looking for realistic and not fictitious HP increases Renntech ECU upgrades are the way to go.

*** Higher horsepower Supercharger Conversions are available at additional charge.
